Project Title:

## **Photos of the Farm Security Administration**

Despite the dry name, the FSA is pretty cool. Remember the Dust Bowl? The FSA was the organization that documented that and helped provide relief for Midwestern farmers. This website will highlight the photography made by this agency. Ideally, it will be multiple pages, all stemming from the home page. The website will use a lot of photos produced by the FSA and will be five pages, including the home page.

- **Home Page/Introduction:** Brief summary of what the FSA was, why it was formed. Won't focus much on photography, will serve as foundation to rest of the information.
- **Photography:** How photography was incorporated into the organization.
- **Photographers:** Brief profiles on some of the most famous photographers
- **Post Dust Bowl Work:** Content about the FSA's work in the 1940s and after, why it was dissolved.
- **Impact:** A section about impact, why the FSA is still relevant.
- **Sources:** Wikipedia, Library of Congress for images
